BSc (Hons) Sustainable Agriculture and Management

Contents

Introduction

The purpose of this handbook is to tell you about the programme on which you are enrolled. It provides you with a written record of the programme philosophy, structure and content, as well as key procedures and rules which the programme team have developed to facilitate the success of you and your fellow students.

This handbook should be read in conjunction with the following documents which can be found at - https://www.cardiffmet.ac.uk/study/studentservices/Pages/Student-Handbook.aspx

- Cardiff Met Student Handbook;
- Student Guidance for Students at Perrotis College;
- Student Charter

These documents will give you a large amount of additional information including:
- Your status as a Cardiff Met student
- The Cardiff Met Student Charter
- Academic Regulations and Conduct of Examinations
- Unfair Practice Procedure
- Mitigating Circumstances Procedure
- Data Protection and Freedom of Information
- Transfer to Cardiff Metropolitan University
- Cardiff Met's Student Union
- Complaints and Appeals
- Disciplinary Procedures, Codes of Conduct and Ethics
- Health and Safety and Health advice

1.2 Other comparable English language qualifications

Other English language qualifications will be considered and examined on a case by case basis and may be recognized. Applicants should submit full details including their examination results.

1.3 The Cardiff Met GETS-HE Test

All students with no formal evidence of English language skills are offered the option to sit the Cardiff Met GETS-HE Test (the test is computer based and is organised at the

Perrotis College premises). Successful completion of the GETS Higher (75% in any individual component) meets the English Language Requirements for direct entry into the BSc programs.

2. Other academic requirements for direct entry into the BSc programs:
A High School Leaving Certificate with good performance.
Note: Students who meet the English Language requirements for direct entry into the BSc programs but their High School Leaving Certificate performance is moderately low, may be considered for direct entry to the BSc programs with the obligation to attend a parallel academic support program.
Foundation
All candidates who do not meet the admissions requirements for direct entry into the BSc programs are eligible to attend the one year preparatory Program.

3. Aims of the programme.
The overall aim of the Sustainable Agriculture and Management programme is to provide a high quality and professionally relevant undergraduate modules which will develop graduates/diplomates with scientific and technical knowledge, together with practical skills, whilst incorporating a wide-ranging and critical understanding of the areas of agricultural production systems and Environment, sustainable crop production and soil management, utilization of leading technologies and Precision Agriculture, for human and animal nutrition and consumer issues relating to these disciplines.

4. Relevant subject benchmark statements and other external and internal reference points used to inform programme outcomes.
The programme has been mapped to the QAA subject benchmark for Agriculture, Forestry, Agricultural Sciences, Food Sciences & Consumer Sciences 2009.

5. Programme Outcomes (reference to the 6 generic institutional graduate attributes as shown at LTDU and if needed, up to 4 additional attributes).

Programme outcomes
Students who have studied any of the two branches/pathways (Precision Agriculture and Livestock Production) of the BSc (Hons/Ord) Sustainable Agriculture and Management programme should be able to:

- Demonstrate knowledge of production of food and non-food products from land and greenhouse resources, and ecosystem's sustainability
- Discuss the principles of land and crop management in a systems approach, considering environmental interactions and effects
- **Relate** the management practices with critical financial, social and environmental issues in the context of world and EU **forthcoming legislation** (reformed Common Agricultural Policy-CAP) and the global **climate change**

Knowledge and understanding
Students who have studied **BSc (Hons) in Sustainable Agriculture and**

Management (SA&M) programme <u>should</u> be able to:

- demonstrate an in-depth knowledge in the selected field;
- critically evaluate contemporary approaches and technologies as well as innovative systems in the field of life sciences, agriculture and the environment ;
- design, execute and discuss the outcomes from a research project in a relevant area.

Skills and other attributes

The programme also incorporates the following generic key skills. On completion of the programme, students should be able to:

- communicate clearly and appropriately, demonstrating an awareness of a variety of contents through reading, listening, writing and presenting;
- manipulate data numerately and coherently in an appropriate form in the discipline-specific professional context;
- manage information through applying technology (including ICT);
- Ability to conduct research into crop and animal production and environmental management issues
- Cognitive skills of critical thinking, to perform efficient analysis and synthesis of production
- demonstrate an ability to manage and develop themselves in terms of learning, time management, appreciating own roles and reflecting on this development;
- work with others with confidence, initiative and effectiveness;
- show flexible, methodical, informed and creative approaches to problem-solving; and
- act in a professional and ethical manner, demonstrating the ability to learn and reflect on experiences.

Graduate Attributes

On successful completion of the programme students should be able to demonstrate the following graduate attributes:

i)   Problem solving and analytical ability
ii)   Inter-personal skills and networking
iii)   Global citizenship (diversity and sustainability)
iv)   Flexibility and adaptability
v)   Effective communication
vi)   Creativity and innovation

The Award(s)

On successful completion of the programme, you will be awarded the title of *BSc (Hons) Sustainable Agriculture and Management.* As a Cardiff Metropolitan University student studying at one of its partner institutions, your award will be made by Cardiff Metropolitan University. You will receive a certificate and academic transcript detailing your achievement and bearing the Cardiff Metropolitan University crest.

Programme Management

Various aspects of the College's governance are carried out by ad hoc and standing committees meet on a regular basis to discuss issues of concern to the College and its constituents and to make policy recommendations to the administration. Responsibilities and members of the standing committees are as follows:

Programme Committees

The Programme Committee consists of all lecturers on the programme, elected student representatives and administrative staff. An academic member of staff appointed from Cardiff Metropolitan University will also attend one programme committee meeting per year. The Programme Committee is chaired by the Programme Director who is responsible to the Programme Committee for the effective operation of the Programme.

The Programme Director will call three formal programme committee meetings per year. Early in the programme, the student body will be asked to elect representatives to present their views at programme committee meetings and through other appropriate channels. Cardiff Metropolitan University and Perrotis College genuinely value the views of students on all aspects of the quality of their learning experience. Therefore, students should make the most of the student representative system, although it would be counter-productive to use it simply to air petty or trivial grievances.

Refer Student Guide for terms of references for Programme Committees.

Student Service Committees

This committee's function is to identify the services the College should provide in order to cover the academic, social and psychological needs of students throughout their time at Perrotis College. Such services include arranging for student advising (including career counseling), developing referral services for psychological and learning disability counseling, overseeing the student work-study programme, identifying and implementing Student Council Provisions, and coordinating the formation and functioning of student clubs and organizations and other campus life activities. The committee also coordinates the student service programme. Committee members include one faculty member, the Director of Student Life, the Head of the Human Resources Department, the Student Life Department Monitor, the Dean, the Academic Dean and the Student Council Vice-President.

Library Steering Committee

This committee is charged with implementing and overseeing the library acquisition plan for required and recommended readings, advising the Library and the College on issues regarding electronic and print sources available at the Main 'Dimitris & Aliki Perrotis' Library, the satellite library 'Information & Media Hub' at the Aliki Perroti Educational Center and the

College. The committee also discusses matters concerning student learning outcomes and student problems. Members include the Head Librarian (and in some occasions also the Perrotis College liaison librarian), the Academic Dean, the Associate Dean of Accreditation and Assessment and the Department Chairs.

Admissions and Financial Aid Committee

This committee reviews all applications for admissions and financial aid and advises the administration regarding the granting of financial aid awards to all students. Committee members include the Director of Enrolment, senior academic staff, the DA and DF, and the College Recruitment Coordinator.

Foundation Programme Committee

This committee is charged with oversight of the Foundation Programme. In this capacity, it monitors and assesses curriculum for the programme, reviews student progress and the awarding of marks, and oversees the security of and provisions for taking and evaluating placement exams, as well as the counselling and placement of students into Foundation and Year 1 BSc modules. The committee is chaired by the Foundation Programme Coordinator, and its membership is comprised of the Dean and all faculty teaching in the programme. The Register serves as an adviser for the committee.

Staff-Student Liaison Committee

Regular meetings of the Staff-Student Liaison Committee are held and this will provide a forum for an open exchange of views between students and staff. These meetings will take place at least twice per academic session and it is expected that Student Representatives will be in attendance, though other members of the student body are also encouraged to attend.

All students will be asked to complete programme/module evaluation forms during their studies and this information, alongside feedback via the Staff-Student Committee and Student Representatives, will be utilised by the Programme Director in reviewing programmes. Issues identified will be considered at Programme Committee meetings and action taken as appropriate.

Membership of the Student-Staff Liaison Committee shall be as determined by its Dean of School and as approved by Academic Board:
- at least one member of the School Management and Planning Team; (Chair)
- at least four members of academic staff nominated by the Dean of School to represent both taught programmes and research degrees at each programme level (sub-degree, undergraduate, postgraduate, research degree) and for each mode of study;
- at least eight students elected by the student body of the School, to represent both taught programmes and research degrees at each programme level and for each mode of study.

External Examiners

External Examiners are individuals from other educational institutions as well as from industry, business and the professions who can provide an objective view of the operation of

the programmes they are associated with. They enable comparisons with the standards of programmes of offered in other institutions of which they have knowledge.

More information on the role of the External Examiner is available at http://www.cardiffmet.ac.uk/registry/academichandbook/Pages/Ah1_06.aspx

Students are entitled to view External Examiner reports and responses submitted in the previous academic session. Please contact your local institution for access to the reports.

The name(s), position(s) and external university or organisation of External Examiners are published below, for information only. Please note that students must not contact External Examiners directly. Appropriate appeal or complaint mechanisms are available and may be found later in this handbook – in the section entitled: Appeals, Complaints and Academic Regulations. Examiners in receipt of contacts from students are requested to refer these to the University.

- Dr. Salimi Zahara, Assistant teaching professor at The University of Bolton

Teaching and Learning Methods

Lectures
Formal lectures are used for the transfer of basic subject material. All staff make their lecture notes available on Perrotis College virtual learning environment called Moodle and students are able to download material as necessary, Moodle should not be seen as a substitute for attending. Lectures provide an opportunity to deliver a broad overview of a topic and to initiate further research and study by students for tutorials, seminars and private study.

Directed Reading
Students are expected to undertake significant directed reading in all aspects of the programme. All Cardiff Met students, including those studying at a partner institution, have access to the University's electronic resources. Guidelines on accessing these resources are available at: http://tsr.uwic.ac.uk/Learning/Library/eleclib/Pages/default.aspx

Tutorials
Tutorial sessions are used to reinforce material presented by the other methods and to clear up possible misconceptions. Tutorials enable students to build on their understanding of the subject gained via the lecture and preparatory readings. Tutorials also provide an environment in which you are able to clarify queries and raise questions about the subject. It is also likely that you will be asked to prepare presentations and you will receive formative feedback on assessed activities.

Case Studies
Case studies present realistic examples and by study, research and discussion students are expected to gain insights into problems that they might otherwise not encounter.

On-site visits

On-site visits to a range of destinations and enterprises will be arranged to provide students with an opportunity to experience some of the theory they have studied being implemented in the work place in a variety of settings and develop their practical skills especially for outdoor activities.

Guest Speakers

Guest speakers (e.g. entrepreneurs; representatives from local and regional authorities; environmental organizations; development agencies; environmental and voluntary organizations) will participate and enrich the learning process, by providing practical and real-life aspects of the field of studies..

Group Work

For the Sustainable Agriculture and Management programme, group work is considered important since industry and laboratories usually require working in teams and communicating with people. Group projects will enhance students' ability for self and team management.

Assessments

Written examinations, essays and presentations.
It is essential when writing essays, examination papers or any form of assignment to write good English. If you do not express yourself accurately and correctly, then you will almost certainly lose marks.
Writing essays and assignments allows students to demonstrate their own ideas and understanding of a topic. The HARVARD method of referencing is recommended by Cardiff Metropolitan University, regardless of the type of dissertation or assignment which is written.

Student Commitments

Attendance

Class attendance is mandatory and students are expected to attend every class prepared to engage fully in all activities. Because the College's Administration understands that absences sometimes are unavoidable, the following attendance policy has been developed

Number of Class Hours per Week	Allowable Absences per Semester (excused and/or unexcused)
3	9 Hours
4	12 Hours
5	15 Hours

Students are allowed to miss up to 1/3 of the module's contact hours per semester. If the number of absences exceeds the allowed limit, students will normally fail those elements of the module that are due to be assessed after the date the absence limit has been crossed. However, a student who has exceeded his/her limit of absences should continue to attend the module's lectures, in order to be eligible to resit the failed elements.

All cases of students who have crossed the absences' limit will be discussed at the Committee on a case by case basis. If there are Mitigating Circumstances, any relevant documentation submitted, should be provided by official authorities. Mitigating Circumstances will be examined by the Committee only if the date of the incident matches the date the absence limit has been crossed. The Exam Board will determine whether a student who misses an assessment method due to excessive absences will be required to resit the failed element(s).

The instructor is responsible for keeping accurate attendance records on all his/her students and for reporting to the Registrar the names of any student who is in danger of exceeding their limit.

The individual student is responsible for keeping track of his/her own absences.

Plagiarism

According Cardiff Met's policy, it is imperative that you give full and correct acknowledgement of any materials you use in your academic work which are not your own. Failure to do so will be regarded as Plagiarism Students fail programmes because they do not acknowledge the source of materials.

It is normal practice to find information and quote it in an academic essay and the action of quoting and referencing is actively encouraged. It demonstrates research, reading about the topic and provision of a balanced argument. An assignment should be accompanied by a bibliography detailing all the books you read when preparing the assignment, even if no quotes were taken from them. You will need to learn how to reference, support material and short programmes are available at: http://study.cardiffmet.ac.uk/AcSkills/Pages/Referencing.aspx

Unfair Practice

All written reports and assignments are submitted electronically and are checked for plagiarism by TurnItIn software. Students are required to check the similarity report on any assignment submitted and resubmit in case similarity was detected. Any assignments with higher than 25% similarity report will be send to Perrotis College's unfair practice committee, to determine whether an allegation of plagiarism is justified. Where there is justifiable evidence to suggest that a student has presented for assessment work that is not the result of his/her own legitimate efforts e.g. copying from fellow students or the internet, the following procedures will apply:

http://www.cardiffmet.ac.uk/registry/academichandbook/Pages/Ah1_08.aspx

Assignment Format

All assessments require a front cover to enable mark recording and feedback, please ensure you use the official form. The front covers can be obtained from the instructor. Always ensure your name is on every sheet of your assignment and the pages are clearly numbered. Always keep a backup copy of the assignment. Do not delete your copy until you have the marked assignment back. Only assignments submitted in Cardiff Met Moodle are accepted.

Ethics

The Academic Board ethics policy requires ethical approval to be sought and granted for all primary research conducted by students studying on Cardiff Metropolitan University programmes. This will, in the majority of cases, relate to undergraduate dissertations.
In such cases students will be required to submit and have approved an ethics proposal before commencing on the research.
A 100% penalty will apply to all undergraduate dissertations for which an ethics proposal has not been submitted and approved. This means the student will be awarded a mark of zero and therefore they will fail the module. The Department Heads will advise and assist students on the process.

Student Support

Careers Advice

The career office assists students in obtaining information concerning potential careers in areas relevant to their studies, as well as information on post-graduate study opportunities. The Career Office helps students in finding information, contacting employers and academic institutions, filling out applications and CVs, preparing for relevant exams, obtaining certifications, etc. Since the College maintains collaborative relationships with universities, business firms and corporations, both locally and abroad, the Career Office can often help bring students into direct contact with potential employers or graduate school representatives.

Academic Counselling

Academic advising is an integral part of the College experience, enabling students to be properly informed regarding academic requirements, existing status, and options. All students are assigned an Academic Advisor, who helps them register, ensures that they understand and correctly follow the academic program, and periodically monitors their progress. All full-time faculty serve as Academic Advisors to incoming and continuing students. As the size of the student body is small, Perrotis College faculty have an open-door policy, allowing students to drop into faculty offices for any issues requiring attention. Students entering their final year at Perrotis choose their Dissertation Advisor, depending on the student's field of interest.

In order to be accessible to students, all full -time faculty hold posted office hours. Faculty advisors also help counsel underachieving students and may participate in student grievance procedures. Students regularly meet with their major advisor a minimum of one time per semester.

Personal Tutoring

Tutorial sessions are used to reinforce material presented by the other methods and to clear up possible misconceptions. Tutorials enable students to build on their understanding of the subject gained via the lecture and preparatory readings. Tutorials also provide an environment in which you are able to clarify queries and raise questions about the subject. It is also likely that you will be asked to prepare presentations and you will receive formative feedback on assessed activities.

Language Study Support

may be considered for direct entry to the BSc programs with the obligation to attend a parallel academic support program.

Special support for overseas

Newly accepted students who are not EU citizens must acquire a student visa in order to enter Greece. Perrotis College will provide students with information and official documents as needed and will support students in completing the process; however, **the responsibility for obtaining visas and residence permits and tracking expiration dates is the student's.**

Obtaining a student visa can be a lengthy process, and candidates are strongly urged to begin early by contacting the appropriate Greek embassy or consulate for information and gathering all necessary documents prior to receiving the official invitation letter issued by the College. Non-EU citizens may be required to pay a deposit before their acceptance to Perrotis College can be processed. When the required deposit is received in full, the College will provide the candidate with an official invitation letter, stamped by the College, as well as by the regional authorities in Greece. The candidate must then submit to the Greek authorities-in person-this document, along with any other required documents and reports to the Greek Embassy or Consulate in their home country in order to obtain a student visa.

Students who enter Greece on a student visa must keep in mind that this kind of visa is valid for only a short period of time. Once in Greece, the holder of a student visa must apply for a Greek residence permit before his or her student visa expires.

Special support for disabled students

Students who experience emotional or learning difficulties may consult the Counselling Referral Coordinator, who can refer the student to appropriate professionals for further assistance. By virtue of the community atmosphere of the College, Student Life and other College staff members often spend time informally with students who are experiencing difficulties. The College Dean and/or faculty members may also discuss specific issues with a student's parents when it is considered appropriate and potentially helpful.

Appeals, Complaints and Academic Regulations

As a student of Cardiff Metropolitan University, you are subject to a number of the University's regulations including their academic regulations, unfair practice procedure, mitigating circumstances procedure, appeals procedure and complaints procedure.

If you are unhappy with any aspect of your experience and wish to make a complaint you should first try and resolve your complaint through the mechanisms that are in place at your local institution. Once you have completed these procedures, if you are still not satisfied you may complain to the University directly.

Details of these procedures can be found in the Cardiff Metropolitan University Student Handbook:

https://www.cardiffmet.ac.uk/study/studentservices/Pages/Student-Handbook.aspx

To make a complaint to your local institution contact Mr. Athanasios Bizmpiroulas (abizbi@afs.edu.gr)

Internal complaints procedures

Perrotis College is committed to providing high quality services and facilities for students, staff and the general public. Perrotis College recognises that there may be occasions when ordinary feedback mechanisms are not sufficient to deal with problems. It is for this reason that a formal Complaints Procedure has been established. The purpose of the procedure is to provide a formal route through which a complainant, as a student or member of staff or member of the public, can bring a complaint to the attention of Perrotis College following Perrotis College Complaints Procedure for students enrolled on Cardiff Met programmes (updated September 2015).

Mitigating Circumstances

Students who have failed to complete or pass a module because of illness or other conditions beyond the individual's control may make a request to the Exam Board to resit one or more methods of assessment based on documented mitigating circumstances. Those approved for reassessment on this basis receive the mark they achieve rather than being limited to a maximum of 40%. Documentation for such mitigating circumstances must be submitted to the Registrar (no later than one class session after the deadline date or one weekday after the exam period). If questions arise, the situation will be reviewed by the Academic Dean in consultation with the relevant faculty member. In cases where a student fails because of lateness in turning in an assignment, the relevant Exam Board will review the mark and the mitigating circumstances (if any).

Withdrawal or suspension

Students who withdraw from the College or wish to suspend their studies at any time must fill out an official Withdrawal Form and an appropriately signed Clearance Form, and submit both forms to the Student life Coordinator and the Registrar. Students will have thirty days from the time they leave the College to complete the withdrawal process and collect the remainder of the residence hall damage deposit. If a student does not complete the withdrawal procedure as stipulated, he/she forfeits the deposit, and the amount will be used to support the College's teams and clubs. In addition, a student who has not completed the Clearance Form will not be eligible to receive a final mark report, an official final transcript or a degree. In case of early withdrawal of the programme of studies/boarding the following applies:

The calculation of the financial obligations is based on the tuition fees of the semester e.g. 2.500€ / 14 weeks X weeks of attendance.

In case of early departure from the dormitories, the following applies:

The calculation of the financial obligations is based on the annual charge of the accommodation, e.g. 2.750€ / 28 X the weeks of residence accommodation.

In both of the above cases the initial deposit of 500€ is not refundable. Students dismissed for academic or disciplinary reasons are not eligible for a refund.

Quality Assurance of Services

The Institution is committed to providing high quality services and facilities for students, staff and the general public. Integral to this is monitoring and evaluating those services to enhance quality and to ensure specified standards are met.

The Institution has in place a variety of mechanisms to ensure that students, staff and public have the opportunity to participate fully in the development and improvement of services and it is expected that all parties will take full advantage of these in making their views known.

The Institution recognises that there may be occasions when ordinary feedback mechanisms are not sufficient to deal with problems. It is for this reason that a formal Complaints Procedure has been established.

Please refer to Student Guidance Handbook for detailed information on complaint procedures.

Induction

At the start date of programme, college administration holds an event at which students are enrolled on respective courses. During the event, weekly class- schedule and academic calendar are provided. Department Heads introduce students to academic programmes, administrative structure, regulations, rules, obligations and responsibilities, which is illustrated in the Student Guidance Handbook and Programme Handbook in details.

At the beginning of each academic year, New Student Orientation is held for all incoming students. This orientation is primarily aimed at familiarizing students with the College campus and its facilities, with the College procedures and policies, and with the American Farm School. Another aim is to help students adjust to this significant transition in their life and to enable them to get to know the persons – fellow students as well as faculty and staff – with whom they will share the next few years of their life. More information about specific activities is provided to new students prior to New Student Orientation.

Student Life Staff provide further orientation to students who live on campus. In addition, students enrolled in the Learning Methods module are introduced to Library and IT facilities during the first week of classes.

STUDENT HEALTH

All students are required to have personal or family health insurance valid in Greece. In the event that a student does not have health coverage, he or she is required to participate in the College's student health plan, the cost of which is approximately 195 € per year. In addition, students are requested to pay 5€ per year for emergency medical services.

HEALTH CARE

All students are required to have personal or family health insurance valid in Greece. In the event that a student does not have health coverage, he or she is required to participate in the College's student health plan, the cost of which is approximately 200 € per year. Students are responsible for paying for any service that the nearby Health Center is not able to provide and that is not covered by the student's insurance plan. For simple health matters, a campus doctor is available for all College students, free of charge, from Monday thru Friday from 7:00 am to 3:00 pm. The doctor's office is located in James Hall.
