Specializations and Career Opportunities

Marketing Management for the Food Sector

This specialization is designed for students wishing to pursue a career in areas connected to the food sector, ranging from the purchasing of raw materials to manufacturing, distribution, sales, marketing, and consumer perspectives.

Graduates can pursue post-graduate study or directly enter manufacturing or retail positions in an industry where the demand for well-trained, experienced professionals exceeds availability.

International Food and Agribusiness Management

The International Food and Agribusiness Management specialization is designed to develop in students theoretical knowledge and practical skills in the areas of business management, enterprise, economic policy, human resource management, finance, technology, and the environment.

Graduates can pursue post-graduate studies or directly enter management positions connected to the field of agribusiness.
